**The Registered Ballot Body (RBB):**

Any organizations or entities that:

- Qualify as one of the SERC Sectors, and
- Are registered with SERC as potential ballot participants in the voting on standards.

Sector Qualification Guidelines:

The sector qualification guidelines are inclusive; any entity with a legitimate interest in the reliability of the SERC bulk power system that can meet the criteria of a sector as defined in Section 2.4 of the SERC's Bylaws is entitled to belong to and vote in that sector. General guidelines for acceptance are:

- Corporations or organizations with affiliates that qualify to belong to more than one sector (e.g., Investor-Owned Utility and Merchant Electricity Generator) may belong to each of the sectors in which they qualify, provided that each sector constitutes a separate membership and is represented by a different representative.
- At any given time, affiliated entities may collectively be registered only once within a sector.
